

I'm so focused on you girl

You feel so good yeah  
Tell me do I feel just as good to you girl  
Amazing I'm going crazy  
The morning comes too soon when I'm with you girl

I just need a little longer  
Maybe you could stay forever  
I wish we could lay here just you and I all night  
I just wanna learn your body  
I just wanna take my time with you  
Loving your body the way it deserves to be loved

Just so you know  
I get my pleasure from finding your treasure girl  
I'm so focused on you girl  
Lost in the moment, know just how you want it girl

Baby, know I don't mind  
We can do it over and over  
I know it's been a long long long time girl  
Nice and slow for you babe  
Caressing your body let me make  
A sweet love to you  
Oh baby let me make you feel real good

I just need a little longer  
Maybe you could stay forever  
I wish we could lay here just you and I all night  
I just wanna learn your body  
I just wanna take my time with you  
Loving your body the way it deserves to be loved, baby

Just so you know  
I get my pleasure from finding your treasure girl  
I'm so focused on you girl  
Lost in the moment, know just how you want it girl

(Break it down)

It's been a long long long time girl  
Since I had your loving baby  
It's been a long long long time girl

Baby girl I'm focused on feeling your love tonight

I get my pleasure from finding your treasure girl  
I'm so focused on you girl  
Lost in the moment, know just how you want it girl  
I get my pleasure from finding your treasure girl  
I'm so focused on you girl  
Lost in the moment, know just how you want it girl

It's been a long long long time girl  
Been so long, so long  
It's been a long long long time girl
