

# One On One

Casey Veggies

I don't have to leave, so I'm gon' stay over  
Climb on top of me and just ride, just ride it  
It's just gonna be me and you together  
One on one when I love you babe, one on one when I love you babe  
I ain't worried 'bout shit babe, when I love you  
All of your rent paid, when I love you  
Give you all of my shit babe, when I love you  
No matter where you are, you the shit babe, when I love you

Yeah, I'm just grinding in the spotlight  
All these people in our business, yeah it's not right  
I'm from where they get the cheque and they cop ice  
All them other niggas, swear that's what I'm not like  
Got her wet like we fucking in the rain, oh  
Going hard, pouring out champagne on her  
Shawty flew that pussy straight to me  
Steph Curry, long range, though  
She said she work for the niggas that treat her right  
She made that nigga body bag that shit for life  
But for me she 'bout to hop up on a flight  
She seeing shit she never seen in her life  
Like 10 girls, sex, love, pain, oh  
She call me Daddy like it's several first names, no  
It's one on one so she climbing up on top of me  
No cameras we ain't worried 'bout the fame, no

I don't have to leave, so I'm gon' stay over  
Climb on top of me and just ride, just ride it  
It's just gonna be me and you together  
One on one when I love you babe, one on one when I love you babe  
I ain't worried 'bout shit babe, when I love you  
Fuck what that bitch say, when I love you  
Give you all of my shit babe, when I love you  
You know that you that bitch babe, when I love you

Half a mill for the deal, let's go  
I fuck her so good, she can't keep it on the low  
She got ass that was leaning to the floor  
And I be riding in that demon down the road  
Young nigga pulling up in a new city  
I can tell she get around, I ain't stupid  
She say she dance, don't think I'm clueless  
I'm so fresh, need a girl that's exclusive  
The model types get hit, that's easy  
One shot, pass her off to C. Breezy  
Told her after sleeping on this Live & Grow shit  
That's what she told me, the game needs me  
She in a bathing suit popping tryna please me  
And she bopping like, who are you CV?  
A young nigga from the block girl  
Always change the spot, I'm a always have a spot, you can't leave me

I don't have to leave, so I'm gon' stay over  
Climb on top of me and just ride, just ride it  
It's just gonna be me and you together  
One on one when I love you babe, one on one when I love you babe  
I ain't worried 'bout shit babe, when I love you

Pay for your rent babe, when I love you  
Give you all of my shit babe, when I love you  
You know that you the bitch babe, when I love you

Whatever you buy, it's okay  
I see you trying on that dress, pick up them J's for me  
Spend it all on you, all for you, let's go all the way  
This guy gon' leave her there, you got me, going crazy, girl I'm out of my mind  
Must not know me, I can't hit it one time, girl you know I gotta come back  
Cause you blow my mind, along with other things, and  
Can we go round three? Don't waste this time wasting time  
Break that body down and do a slow wine just for me cause I

I don't have to leave, so I'm gon' stay over  
Climb on top of me and just ride, just ride it  
It's just gonna be me and you together  
One on one when I love you babe, one on one when I love you babe  
I ain't worried 'bout shit babe, when I love you  
Pay for your rent babe, when I love you  
Give you all of my shit babe, when I love you
