I was all you thought you ever needed So you said: How'd I let this slip away? On the floor, cold and barely breathing So it goes Sleeping all my dreams away 'Til you found me

Like a lightning bolt to the heart You woke me up, woke me up Yeah, you brought me out of the dark With just one spark, just one spark Now I can feel your pulse Kick starting this lifeless soul Like a lightning bolt to heart You woke me up, woke me up Yeah

I was all you thought you ever needed
So you said: How the hell did I let this slip away?
Have I lost myself?
I was stumbling right on the edge
You pulled me back, for one last dance
Yeah, I was lost on the darkest road
I need your light to lead me home

Now I can feel your pulse
Kick starting this lifeless soul
Like a lightning bolt to heart
You woke me up, woke me up
Yeah
Like a lightning bolt to heart
You woke me up, woke me up
Yeah

Can you feel me
Like I feel you
Can our hearts still be together?
This is our time,
Don't you waste it
We can sing this song forever
Can you feel me
Like I feel you
Can our hearts still be together?
This is our time,
Don't you waste it
We can sing this song forever

Now I can feel your pulse Kick starting this lifeless soul Like a lightning bolt to heart You woke me up, woke me up Yeah
