

Plz Don't Go

Cashmere Cat

Let's stay until the last light fades, eh
Let's stay until the last light fades, eh
Let's stay until the last light fades, eh
Let's stay until the last light fades

We've come from so far away
And right now, I think we should say
You know there's so much more to see
So don't go home without me

Please don't go, please don't go
Please don't go, please don't go
Please don't go, please don't go
Please

I'd like to ride it, ride it
I'd like to ride it

But let's stay until the last light fades
Let's stay until the last light fades
Let's stay until the last light fades, eh
Let's stay until the last light fades, eh
Let's stay until the last light fades, eh
Let's stay until the last light fades, eh
Let's stay until the last light fades, eh
Let's stay until the last light fades

I'd like to ride it, ride it
I'd like to ride it
Alright

I just wanna go wherever you go
I just wanna follow
