

# Champagne

Cassadee Pope

4 o'clock in the morning, city lights  
Like diamonds lighting up the night  
The party's over but we're not  
Take a taxi down to the water  
Moon is out, but it's getting hotter  
It's been hours now, haven't had a drop  
And this feeling won't stop

You're my champagne, baby you go straight to my head  
Just one taste, I'm about as high as I can get  
Voice shaking, heart skipping  
One look and my world's spinning out  
You're my champagne  
You're my champagne

Long walk home cut through the park  
Give away our secrets underneath the stars  
Getting lost, but we laugh it off  
Don't got cash, but we got time to spend  
Don't stop, don't want this night to end  
Wanna drink it up, every sip of you

You're my champagne, baby you go straight to my head  
Just one taste, I'm about as high as I can get  
Voice shaking, heart skipping  
One look and my world's spinning out  
You're my champagne  
You're my champagne

Oh I'll never get enough of you

You're my champagne, baby you go straight to my head  
Just one taste, I'm about as high as I can get  
Voice shaking, heart skipping  
One look and my world's spinning out  
You're my champagne  
You're my champagne
