

Baby Blue Eyes

Cast

Just a game we're taught to play, it's not really you
You kinda knew it anyway but what can you do
Now you know there's something wrong but you can't see for sure
When nothing is real anymore
I wish that I just could forget everything I have heard
All the words I heard you say, all the pain and the hurt
It's like a rope around my neck and I'm starting to fall
And nothing is real anymore
My life will never be the same

But don't cry, baby blue eyes
Don't let them say, don't ever say we never tried
Hold on, save all your goodbyes
Till tomorrow breaks my heart and leaves me high and dry
Oh yeah

There's nothing here that I possess, nothing real I can hold
Just an overwhelming sense deep down in my soul
Like a horrible melody that I can't see for sure
When nothing is real anymore
My life will never be the same

But don't cry, baby blue eyes
Don't let them say, don't ever say we never tried
Hold on, save all your goodbyes
Till tomorrow breaks my heart and leaves me high and dry

But don't cry, baby blue eyes
Don't let them say, don't ever say we never tried
Hold on, save all your goodbyes
Till tomorrow breaks my heart and leaves me high and dry
But don't cry, baby blue eyes
Don't let them say, don't ever say we never tried
Hold on, save all your goodbyes
Till tomorrow breaks my heart and leaves me high and dry

Don't cry, baby blue eyes
And if tomorrow breaks your heart I'll never leave you high and dry
