

Dream for You

Casting Crowns

Hey, David, I hear you've been dreaming
About being a big time shepherd some day
You're gonna prove your brothers wrong
You're gonna sing your shepherd song
To the cattle on a thousand hills
But I've been thinking

I'm having trouble with a giant down the road
You're the one who's going to face him toe to toe
Wipe that grin right off his face
And whip this army into shape
I'm going to turn the nation back to Me
And David, you're right about one thing
Your little shepherd songs are going to make the whole world sing
And I'm gonna make you king

So come on, let Me dream, let Me dream for you
I am strong when you're weak and I'll carry you
So let go of your plan, be caught by My hand
I'll show you what I can do
When I dream for you
I have a dream for you

Hey Mary, I've heard you've been dreaming
Making plans for your big wedding day
You and Joseph are gonna be
The picture perfect family
Maybe a couple of kids down the road
But I've been thinking

Even before time began
I had a picture perfect plan
Of how to save this broken world
Through the life of just one man
I'm gonna send my only Son
And Mary, you're the one
You were right about one thing
You're gonna have that family
And you're gonna raise a King

I'm stronger than you think I am
I'll take you farther than you think you can
You sing and call me Great I Am
So take your stand
My child, if you only knew
All the plans that I have for you
Just trust me, I will follow through
You can follow Me
