

Standoff

Cat's Eyes

We bought the green past the end
It the center of a roomy hours go by
Take a pet looking at mine

Standoff and we'll both be there I'll I'll
Yes and we'll be right there
I'll I'll

And when when our time has come
When the shade comes back share the light
Everything's sure in the silver light

Standoff and we'll both be there I'll I'll
Yes and we'll be right there
I'll I'll
Yes and we'll be right there
I'll I'll

And the south is When we see what we have
When are I come to know oh
When we smile there's the moon
When we see what we have
When we have what we spent
By counting down oh
