

## Best Friend's Girl

### Caught In The Act

i could never say i love you  
never make you understand  
could only dream we're together  
silently pretend  
i could never show my feelings  
never hold you in my arms  
how i just wish i'd never fallen in love  
with my best friends girl.

do you remember,  
the first time that we met  
that third of september  
a night i can't forget.

my best friends girl  
you just looked so beautiful  
i couldn't get you off my mind.

i could never say i love you  
never make you understand  
could only dream we're together  
silently pretend  
i could never show my feelings  
never hold you in my arms  
how i just wish i'd never fallen in love  
with my best friends girl.

we used to be together all the time  
so close the three of us,  
the problems and the smiles  
we made a promise  
we would always be friends  
but for you i feel so much more inside.

i could never say i love you  
never make you understand  
could only dream we're together  
silently pretend  
i could never show my feelings  
never hold you in my arms  
how i just wish i'd never fallen in love  
with my best friends girl.

and as they say true friendship never dies  
and looking back  
we smile at all the tears we cried.

i could never say i love you  
never make you understand  
could only dream we're together  
silently pretend  
i could never show my feelings  
never hold you in my arms  
how i just wish i'd never fallen in love  
with my best friends girl.
