

## New Moon

Cave In

So I saw the angel girl  
Hang her wings by the door  
Tired from the windy chill  
Guilt has forced her to land  
"I no longer know" she said  
"The way to fly myself home"

May it all become familiar to us all..  
New moon.. (8x)

She's so vain, she's dreaming of  
Funerals to come  
It's the part of the movie where  
You can't help but close your eyes  
A social butterfly retreats  
Back to it's cocoon

Surely this will be familiar to us all  
New moon.. (10x)

Hold my gaze.. (5x)  
Gaze

New moon.. (11x)
