

Just People

Cazzette

We're just people living ordinary lives, watching time pass by
We're just people moving left and right, [?] tonight

When the ends they don't meet, we just find a way
And we spend all our life learning from mistakes
We're just people, we're just people

Just people
Yeah we fall in love, always one too much
'Cause we keep growing strong
We laugh and cry, 'til the tears run dry

When the ends they don't meet, we just find a way
And we spend all our life learning from mistakes
We're just people, we're just people
We're just people

Baby, don't expect anything
Just open up and pour it in
We're just people
Yeah we fall

When the ends they don't meet, we just find a way
And we spend all our life learning from mistakes
We're just people, we're just people
We're just people

We're just people
