

# Missing You

Cazette

My good fortune helped me find you  
I said "let me live beside you"  
We keep moving with the madness  
Tell me, why can't we just have this?

I ain't ready for another night, missing you  
Hello, how's in the drain now? Swimming pool  
I ain't asking for nothing but everything  
Nothing but everything

If I can't walk with you I'd rather walk alone  
If I can't dance with you I'm dancing on my own  
There's so much trouble I can get myself into  
But I'd rather be missing you  
I'd rather be missing you

But I'd rather be missing you  
I'd rather be missing you  
I'd rather be missing you

I wish you were here to witness  
And here listen to my commitment  
I want it all, can't you come with me?  
My only enemy is distance

I ain't ready for another night, missing you  
Hello, how's in the drain now? Swimming pool  
I ain't asking for nothing but everything  
Nothing but everything

If I can't walk with you I'd rather walk alone  
If I can't dance with you I'm dancing on my own  
There's so much trouble I can get myself into  
But I'd rather be missing you  
I'd rather be missing you

I'd rather be missing you  
I'd rather be missing you  
I'd rather be missing you  
I'd rather be missing you

I ain't ready for another night, missing you  
Hello, how's in the drain now? Swimming pool  
We ain't asking for nothing but everything  
Nothing but everything

If I can't walk with you I'd rather walk alone  
If I can't dance with you I'm dancing on my own  
There's so much trouble I can get myself into  
But I'd rather be missing you  
I'd rather be missing you

I'd rather be missing you  
I'd rather be missing you  
I'd rather be missing you  
I'd rather be missing you
