

# On My Mind

Cazzette

I'm only human, I see you moving  
Don't know your name  
You got desires, they'll take you higher  
You got no shame

It's been a long time, I'm coming  
Long time, I'm coming don't you know  
Been a long time, I'm coming  
Long time, I'm coming can't say no  
I'll take a broken heart just for you  
I'll tear my soul apart to something new

You are on my mind  
The rain, the fire  
You're the only crack  
I want, out of sight

Then I'll do it all again, do it all again  
Just one night with you  
You are on my mind  
The rain, the fire

I knew should owe you  
Oh, girl I told you  
That this ain't easy  
You 'bout to lose it all  
And all your dream and love  
But you can't please me

It's been a long time, I'm coming  
Long time, I'm coming don't you know  
Been a long time, I'm coming  
Long time, I'm coming can't say no  
I'll take a broken heart just for you  
I'll tear my soul apart to something new

You are on my mind  
The rain, the fire  
You're the only crack  
I want, out of sight  
You are on my mind  
The rain, the fire  
You're the only crack  
I want, out of sight

Then I'll do it all again, do it all again  
Just one night with you  
You are on my mind  
The rain, the fire
