

Blue Guitar

Celeste Buckingham

You still have that blue guitar,
From the day you sang and stole my heart
And hey Delilah still runs through my head
And every night I'm told to go to bed
I have my phone and talk to you instead
Still the rings under my eyes are

Rainbow color filled with sunlight
I can't get you off my mind and I
I tell all my friends to call me Blue

I like kissing, standing, dancing in the rain
And screaming out my lung just to call your name
I hope everything's okay with you
With love from Blue, with love from Blue

Then you didn't always call that
Didn't mean a thing at all but then
I started sinking down and you
Weren't there for me

I don't know what happened you fell
Not attracted and this is harder than I ever imagined

Rainbow color filled with sunlight
I can't get you off my mind and I
I tell all my friends to call me Blue

I like kissing, standing, dancing in the rain
And screaming out my lung just to call your name.
Rainbow color filled with sunlight
I can't get you off my mind and I
I tell all my friends to call me Blue
I like kissing, standing, dancing in the rain
And screaming out my lung just to call your name.

After all the magic was over
You wanted out and love doesn't last forever, woah
But being friends just isn't enough for me
So I'm sorry that it's gone wrong
But because of you my life is still

Rainbow color filled with sunlight
I can't get you off my mind and I
I tell all my friends to call me Blue
I like kissing, standing, dancing in the rain
And screaming out my lung just to call your name.
Rainbow color filled with sunlight
I can't get you off my mind and I
I tell all my friends to call me Blue
I like kissing, standing, dancing in the rain
And screaming out my lung just to call your name.

I hope everything's okay with you
With love from Blue, with love from Blue

You still have that blue guitar

But you don't sing anymore and you broke my heart
And hey Delilah doesn't run through my head anymore
