

# Heart

Celeste Buckingham

Is there somebody out there  
that makes me feel as cold?  
We used to go and run in circles  
where you would tell me to go  
Yeah were you ever sorry  
that you made me feel so blue?  
No you didnt care you just left me there, alone

Silly girls they are calling, calling out your name  
Baby its not your fault no your not not the one to blame  
Did you think I was waiting waiting just for you?  
Baby I got I got better things to do

Just tell me baby

Tell me how to get close to your heart  
Tell me how to get close to your heart  
Tell me how to get close tell me now now yeah  
Tell me how to get close to your heart  
Tell me how to get close to your heart  
Tell me how to get close tell me now now

You just keep on complaining  
that we're taking this too slow  
Honey don't get me wrong  
but I just want to let things go, Yeah  
When you thought that you had me  
no you had nothing at all  
Can't you just work on your hands  
baby you were bound to fall

Just tell me baby

Tell me how to get close to your heart  
Tell me how to get close to your heart  
Tell me how to get close tell me now now yeah  
Tell me how to get close to your heart  
Tell me how to get close to your heart  
Tell me how to get close tell me now now

Oh baby if I had done this differently  
then maybe you would talk to me  
and open up  
Oh every step that I have taken yeah  
can pull me even further down  
hopefully i wont stop now

Stop talkin' baby

Tell me how to get close to your heart  
Tell me how to get close to your heart  
Tell me how to get close tell me now now yeah  
Tell me how to get close to your heart  
Tell me how to get close to your heart  
Tell me how to get close tell me now now ...
