

Battle Of Oblivion

Celesty

Why are you here?
You should be leading Elger my brother dear
Don't you remember me?
I'm the one who raised that riot, caused fear

Memories in my head
Now I remember what you did, soon you're dead
My wife died that day
Elger's people kept that secret, so I would stayed

Ice, earth, wind and fire
I possess them now (with might and glory)
Powers in my heart, now I am the god
And all you will worship me

Now prepare to die
My sword pierces your heart revenge is now mine
Now you burn in hell
Reigning the elements you will rise and fell

Ice, earth, wind and fire
You have lost them now (I feel my glory)
Peace enters this land
It came by my hand
With the power of sword it is done

Ice, earth, wind and fire
You have lost them now (I feel my glory)
Peace enters this land
It came by my hand
With the power of sword it is done
