

Unshakeable

Celldweller

Beyond the reaches of our galaxy
Three figures watch over us all
As suns are rising on a distant planet's shores
They are watching, and waiting, always orchestrating

Celestial covering of human kind
Perfectly hovering in space and time
A world that turns when you're in control
Means we're bound to stand on ground that's unshakeable

Three figures watch over us all
As suns are setting on a distant planet's shores
They are watching, and waiting, always orchestrating
