

Fast Blast

Centhron

A pale moon rises
Above iron cyberfields
Reflects a crimson light
That leaves the veins of fright

Electric lonely world
Stars carried by fictitious birds
Through darkest cosmic seas
In emptiness they bleed

You need
Fast Blast in techno beats
Fast Blast is all you need
Raise your fists in the air
And scream together
Fast Blast

Fast Blast [2x]

Spacegothic horny girls
Should be immortal queens
To stop the bloody streams
And fuck in blasting beats

Fast Blast in techno beats
Fast Blast is all you need
Raise your fists in the air
And scream together
Blast
[3x]
