

From Intact to Broken

Centinex

Turning the face into one solid substance
Countenance rapidly beaten
The hard bones of the skull remain in place
Soft tissues slowly mashed by hand and hammer

From intact to broken

Nose and lips, ears and skin rearranged
Senseless pounding, facial abuse supreme
Carved by knife, flay to naked
Bloody sludge, facial mince

From intact to broken

Visage mangled
All different parts of the face destroyed

Breathing heavily and intermittently
Gurgling sinuses filled with blood
The imposed body struggling for survival
Unconscious, almost dead, snoring a final breath

From intact to broken

Visage mangled
All different parts of the face destroyed
