## **Sleep on It**

Chaka Khan

(We've got to) Sleep on it Everything's gonna be alright If we just sleep on it Everything's gonna be alright

Tonight there will be no more quarrelling We'll shut out the lights, close our eyes I don't know how this started I don't know why we fight I'll appologize for all the unkind things I said to you Why can't I see what's right for me Might not be right for you

(We've got to) Sleep on it Everything's gonna be alright If we just sleep on it Everything's gonna be alright

People are gonna think What they what to think Feel what they want to feel I don't wanna see you cry I don't wanna see you compromise The things that shine The brightest in your eyes Hold on to your dreams Hold on to them tight
