

## Keep It Right There

### Changing Faces

Anytime I need you baby you gave good love  
And every time I turn around you're all that I'm thinking of  
Lately you think our relation going too fast  
Can we try it tonight now baby can we make it last

Keep it right there keep it right there if you wanna please me  
Keep it right there keep it right there and I'll make it easy  
Keep it right there keep it right there if you wanna please me  
Keep it right there keep it right there and I'll make it easy

Whenever you wanna do it wherever you wanna go  
I know that I can get right with that if you just take it slow  
(So baby let's go, let's go)  
As you know that everything you do is so damn fine  
And I would like you love fair if you just take your time  
So you gotta

Keep it right there keep it right there if you wanna please me  
Keep it right there keep it right there and I'll make it easy  
Keep it right there keep it right there if you wanna please me  
Keep it right there keep it right there and I'll make it easy

You know that I like what you do so slow down  
And catch this groove  
DeVante won't you help us singing  
Won't you help me say ooo

Oooo keep it slow  
Oooo and make it easy  
Oooo keep it slow  
Oooo and try to please me
