

## Same Tempo

## Changing Faces

Gotta take our time, take our time  
Gotta take our time, take our time

Can't comprehend it baby  
Why I feel this way  
I think about you boy  
Till the point it's buggin' me  
It brought about this  
Kinda unexpected energy  
I never knew  
I had inside of me

I need you to understand  
I intend to make you my man  
You just gotta realize  
This is not a game, it's how I feel inside

So we better

Take our time  
Baby cause it's only right  
We just need to take it slow  
So that we can both flow, on the same tempo

Take our time  
Baby cause it's only right  
We just need to take it slow  
So that we can both flow, on the same tempo

No matter how I try  
I just can't deny (whoop whoop)  
The way you make me feel  
Wit' ya sex appeal (whoop whoop)  
You got what I want  
Everything I like (whoop whoop)  
You take all of me  
With no sympathy (whooooo)

I want you to understand  
I intend to make you my man  
You just gotta realize  
This is not a game, it's how I feel inside

So we better

Take our time  
Baby cause it's only right  
We just need to take it slow  
So that we can both flow, on the same tempo

Take our time  
Baby cause it's only right  
We just need to take it slow  
So that we can both flow, on the same tempo

[Edmund Clement:]  
Whatever you want baby

Whatever you need baby (whoop whoop)  
I'll make you slow down  
No matter what I'll be around baby (whoohoo)  
You can trust me  
Satisfaction guaranteed (whoop whoop)  
Anytime and anyplace  
I'm into you and only you (whoohooo)

Take our time  
Baby cause it's only right  
We just need to take it slow  
So that we can both flow, on the same tempo

Take our time  
Baby cause it's only right  
We just need to take it slow  
So that we can both flow, on the same tempo

Take our time (whoop whoop)  
We can flow  
So that we can both flow on the same tempo  
Take our time (whoop whoop)  
So that we can both flow on the same tempo

Take our time  
Baby cause it's only right  
We just need to take it slow  
So that we can both flow, on the same tempo
