

# Always Is Always Forever

Charles Manson

Always is always forever  
As long as one is one  
Inside yourself for your father  
All is none all is none all is one

It's time we put our love behind you  
The illusion has been just a dream  
The valley of death and I'll find you  
Now is when on a sunshine beam  
So bring all the young perfection  
For there us shall surely be  
No clothing, tears, or hunger  
You can see you can see you can be
