

## Blue Star

The Charlie Daniels Band

Blue star over my shoulder  
Blue star, can't you see?  
Blue star, it's a little colder  
She's gone away from me

And I wish I'd never seen her with the sunlight in her eyes  
And I wish I'd never learned the game she played  
And I wish I'd never listened when she told me all the lies  
And I wish I'd never seen her walk away

She was everything I wanted  
She was sweet mystery  
Blue star, every night I hold it  
She's gone away from me

And I wish I'd never seen her with the sunlight in her eyes  
And I wish I'd never learned the game she played  
And I wish I'd never listened when she told me all the lies  
And I wish I'd never seen her walk away

Dark eyes shining like two diamonds filled with fire  
Dark hair blowing in the wind of hot desire  
Red lips pulling me now

Dark eyes glowing like two diamonds filled with fire  
Dark hair blowing in the wind of hot desire

Blue star over my shoulder  
Blue star, can't you see?  
Blue star, it's a little colder  
She's gone away from me

And I wish I'd never seen her with the sunlight in her eyes  
And I wish I'd never learned the game she played  
And I wish I'd never listened when she told me all the lies  
And I wish I'd never seen her walk away  
And I wish I'd never seen her walk away
