

Radio Maria

Charlotte Martin

Changing mood gave my mind
Miles before i fell to sleep
Smile for you to smile
Dream for you to dream

And i remember radio maria
And the way you looked at me then
And i remember what was never spoken
And the way you sipped on your gin
I remember
I remember

Question where we'd been before
Raise the time; close the door
Wait for me to come
Revel past what's done

And i remember radio maria
And the way you looked at me then
And i remember what was never spoken
And the way you sipped on your gin
Oh and i remember radio maria
And the way you made me then
You just touched me
Touched me for a moment
And the way you sipped on

How beautiful
How beautiful
How beautiful
