I gotta be the one
To say the things you cannot say
Cause colors fade
They all fade away
And all you're left with is grey

And the pills you take

Dancing bears

And the pills you take
Don't make it better
And the drinks you drink
Don't make it better

So hold your breath and count to 10
Like me better than

Blue like gold
Yellow rainbows fall
Hello,

And the pills you take
Don't make it better
And the drinks you drink
Don't make it better
And the love you fake
Don't make it better

So hold your breath and count to 10
Like me better than
