

# All Hail The King

Chastain

Say what you will about faiths and beliefs  
Say what you will about our salvation  
Say what you will about our noble cause  
Say what you will about our lost nation  
We know the reasons, We know the crime  
We know the long odds, We know the signs  
All Hail The King, lead us forth to victory  
All Hail The King, we will prevail once again  
Say what you will about honor and shame  
Say what you will about our chosen path  
Say what you will about covenant of arms  
Say what you will about our bloody wrath  
We know the reasons, We know the crime  
We know the long odds, We know the signs  
All Hail The King, lead us forth to victory  
All Hail The King, we will prevail once again  
Say what you will about methods of war  
Say what you will about the troops that we send  
Say what you will about our lack of mercy  
Say what you will about our chances to win  
All Hail The King, lead us forth to victory  
All Hail The King, we will prevail once again  
All Hail All Hail  
All Hail The King All Hail The King  
All Hail All Hail  
All Hail The King All Hail The King
