

# Bleed Through Me

Chastain

They are around me but you have found me  
Never letting me wander the forest lawns alone  
You are near, I feel you everywhere  
But the tears that fall down from my naked face  
I will never let them touch your sacred ground

Your mountain is steep for me  
But I will find the way for thee  
Breathe through me Please  
Inherently

I often wonder why you stay around to hear what I have to say  
You must have realized that you wanted it that way  
I hunt for the next turn to take  
Having to learn again

But you're a constant reminder of my last mistake

Come with me  
Bleed through me

But you're a constant reminder of my last mistake

The memory of what he said  
Runs through my veins  
But I'm alive and strong to tell the tale

Through the journey I found the cave all by myself  
Now breathing deeper I pulled from within I felt him  
When the warm wind blows  
I know he comes to guide my way  
The deeper I go  
Now know what you all share with me  
Because you and I don't live far from hell

But you're a constant reminder of my last mistake

Come with Me  
Bleed through me
