

## Children of Eden

Chastain

They live in a world of their own  
They laugh and they're never seen to change  
They have no place in the cell for us  
There ain't a peace they'll always be the same

Children of Eden (repeat)

Their smiles of joys are written on their face  
And Eden's fall they know not what they missed  
But somewhere along the big... rests  
Their teacher comes see thru and says

Children of Eden (repeat)

Hear the words spoke in the dark  
Their world will never be the same  
They learn the ways of life  
And talk about another choice  
They can grab only what they see  
They only learn from some one voice

Children of Eden (repeat)
