

I Am the Rain

Chastain

They write the books, they set the rule
They say do this to get somewhere
I'm still here
We choose this life, let's face their pack
We've got a strength that they can't see
We all believe

I feel your pain
I am the rain

You look at me, I look at you
We are the same
Just a different name
Your circle may not ever be unbroken, but who cares
Just be aware

I feel your pain
I am the rain

We have the time, I know the way
Push ahead and follow me, let it be
The place is now, the wind is yours
To get what you deserve, find the nerve

I feel your pain
I am the rain

I'm the rain, rain, rain...
I feel your pain...
I am the rain!
