

# I've Seen Tomorrow

Chastain

I've seen fate and more again  
I know who loses and I know who wins  
I see the places  
And things that aren't even there  
I know the future of all  
I've seen tomorrow

I see the wars that are set in time  
The quatrans of doom within my mind  
I know the day that will spell out our end  
I know the future of all  
I've seen tomorrow

I've seen the tyrants  
That have ruled the world  
On the horizons  
The worse shall come

His reign of terror will last far too long  
I know the future of all  
I've seen tomorrow
