

# One Day to Live

Chastain

Into death a human tide  
You see a double X  
There is a freak...  
You made your last protest

The dawn is higher  
Within the sounds you know your...  
Baby you need love so long

You have one day to live  
And love comes around today  
One day to live  
Before you're just a grave

The power of love against all odds  
You make the promises  
You keep it above erase the...  
You won't be free tonight

Only today within is yours  
You don't stand a chance...  
Take a stance

You have one day to live  
And love comes around today  
One day to live  
Before you're just a grave

Father of black  
And father of light  
Sit in the judges chair  
With the future ahead

The skies are red the rain ahead  
And the... opens the gate  
In the mist stands the boss  
Waiting for his take

You have one day to live  
And love comes around today  
One day to live  
Before you're just a grave
