Chastity Belt

I have no lips
I have no teeth
You can't prove anything

You're not here
You're not here
We desire what we fear

We're full of blood
We're full of blood
Why did you run
We're full of blood

I have no hands
I have no feet
I have no memory

Vacant thoughts
Vacant thoughts
Vacant love
Vacant lot

We're full of blood
We're full of blood
Why did you run
We're full of blood

Nothing above
Nothing beneath
Nothing in between

We're full of blood
We're full of blood
Why did you run
We're full of blood
