

# Outliers

Chelsea Grin

They all think they can tell us how  
To live and breathe, and shut our mouths and sit down

You get in line or you get put down  
Don't wanna see us now, don't wanna hear us now  
So follow me and we'll live cast out  
We never wanted to be like them so fuck you

You can't save us  
We never needed you  
You can't change us  
We never wanted to

You, you're gonna be a failure  
Soon you're gonna realize  
No I'll never be ashamed  
No, no I'm never gonna hide  
You keep making me sick  
Well I'm sick of your pride  
You're such a fucking waste in my eyes  
Go

You can't save us  
We never needed you  
You can't change us  
We never wanted to

We can see your lies  
We can smell your fear  
Can you hear us now?
