

# What If We Fly

Chely Wright

## Reasons

We've got a million  
To stop taking chances  
And start playing it safe  
Memories  
Of old love can haunt you  
I should be scared to death  
But I can't walk away

'Cause what if we fly  
What if we fly  
And dive off the edge of the end of the world as we know it  
What if we fly  
Have faith enough to think fate might just know where we're going  
What if the arms of the wind carry us to the place  
We never could find  
Yes we might fall  
But what if we fly

## Answers

They don't come easy  
I don't know what's wrong anymore  
But I know when it's right  
Only a dreamer  
The truest believer  
Can let the chains fall to the ground  
And take to the sky

'Cause what if we fly  
What if we fly  
And dive off the edge of the end of the world as we know it  
What if we fly  
Have faith enough to think fate might just know where we're going  
What if the arms of the wind carry us to the place  
We never could find  
Yes we might fall  
But what if we fly

I know we might fall  
But what if we fly
