As you realize that you're helpless
Do you mind if I suggest you let it burn?

Take it from a broken hearted scholar Who would've bet my bottom dollar We would work
But I considered lesson learned

I know your heart is breaking down
Can you feel the pain working?
I bet you feel so lonely now
And there's no one there to comfort you

Because you cheat the one you call on
And she left you all alone
But the tears you shed you can count on
But your tears won't let you down so cry, cry, cry

Cry, cry, cry
Fill me up an ocean
Cry me up a river, boy, I hope
I hope, I hope you feel so lonely

That you wanna throw up
Hope your nights are so cold
'Cause you're missing my love

Got you love sick, love sick And you know I'm loving it Listen closely You can hear me laughing

Sleep now baby
But when you wake up it'll be the same
You'll realize nothing's changed
To live in a state of agonizing pain

It won't last forever
But now it hurts like hell
I know it may be cold
But I, I still can't wish you well

I know your heart is breaking down Can you feel the pain working? I bet you feel so lonely now And there's no one there to comfort you

Because you cheat the one you call on No surprise she ain't there But the tears you shed you can count on But your tears won't let you down

Cry, cry, cry
Fill me up an ocean
Cry me up a river, boy, I hope
I hope, I hope you feel so lonely

Bet you wanna call her Hope your nights are so cold 'Cause you're missing my love

Cry, cry, cry
Fill me up an ocean
Cry me up a river, boy, I hope
I hope, I hope you feel so lonely

Bet you wanna call her Hope your nights are so cold 'Cause you're missing my love

I'm loving that you're hurting I'm loving you feel pain It's Karma, it's for certain This time you're in the game

So glad that it's your tears Hope that it takes time to heal Yes, heartbreak is for real Now you see how I feel

Cry, cry, cry
Fill me up an ocean
Cry me up a river
Boy, I hope, I hope
I hope you feel so lonely

That you wanna throw up
Hope your nights are so cold
'Cause you're missing my love

Cry, cry, cry
Fill me up an ocean
Cry me up a river
Boy, I hope, I hope
I hope you feel so lonely

That you wanna throw up
Hope your nights are so cold
'Cause you're missing my love
