

Joyride (Omen)

Chevelle

I've heard about the joyrides and I want in
It's fair to say it's in the past, if you're kidding
And you're kidding, and you're kidding

Like a God awful Omen, just hit,
stabs like some voodoo hex
And like a seventh sign one, double crossed,
This is it, this is it

Late night, this heart needs pumping
Joy, ride and famous lies

Angel eyes, gotta feed, taking aim, none of these
Pull right out,
Didn't lie, didn't like, none of these
New revenge, odd events, catching Hell, evidence
Chase you down

Late night, this heart needs something
Joy, ride and famous lies

Almost always open up
Almost always laughing over
Almost never open up
Chase them ghosts

Pigheaded
Your
Joyride

Late night, this heart needs pumping
Ride, joy, ride and famous lies
Ride, joy, ride and famous lies
