Chris Brown

If you're only as good as the company you keep
Then I'mma blame you for what they say about me
(Free your mind, and let your conscience be free)
When I was by myself I was fast asleep
Since you came around I've been up for weeks
(Free your mind, and let your conscience be free)
Yi-yi-yikes I've been with the wrong crowd
I can make you a believer, if I turn the nonsense down
I keep my secrets in a safehouse, better if I don't speak
They was tryna tell me, they just outline my shape out
Place me at the crime scene
I can see from this high up, you ain't got a heart girl
Privacy is for the cheater, obviously you're deceiving

I know
I know just who you are
You put me on lay away
You just left a heart shock
I think that it's over
I think that it's over

I swear to god I'm moving on
I ain't go back no more, I ain't go back no more
I ain't go back no more, I ain't go back no more
(I ain't tripping of you you you you)
I ain't go back no more, I ain't go back no more
(I ain't tripping of you you you you)
I ain't go back no more, I ain't go back no more

You just start a fight, I ain't fighting back I'm cool with it
I, simply came here to party
Why, would I trip of that bullshit, when I'm on that good shit
I swear to god I'm moving on

Substitute love for a better thing
I deal with my pain like a lonely child
I didn't build these walls for you to piss all on my past oh
Go ahead burn it down, I'mma build me another one
All these clouds

I know
I know just who you are
You put me on lay away
You just left a heart shock
I think that it's over
I think that it's over

I swear to god I'm moving on
I ain't go back no more, I ain't go back no more
I ain't go back no more, I ain't go back no more
(I ain't tripping of you you you you)
I ain't go back no more, I ain't go back no more
(I ain't tripping of you you you you)
I ain't go back no more, I ain't go back no more

You just start a fight, I ain't fighting back I'm cool with it
I, simply came here to party

Why, would I trip of that bullshit, when I'm on that good shit

I swear to god I'm moving on.

Why, would I trip of that bullshit, when I'm on that good shit

I swear to god I'm moving on.
