

Change Me

Chris Cagle

I'm a rock of solid stone
And this place I'm in is not my home
I feel the wind rushing by
It see's the world why can't I?
I'm so good at standing still
If you don't have me nothin' will

Change me tonight
Don't be afraid
If you have to break me
Change me now
Into anything you need
Baby I want to believe
Your love can save me
Change me

I've been lost for so long
But what I had is almost gone
There's so much more I could be
So work your hands into me
I know exactly who I am
I'll just stay here unless you can

Baby just make me believe
Your love can save me

I'm a rock of solid stone
This place I'm in is not my home
