

Eyes Of An Angel

Chris Norman

You were so beautiful
I saw you in a café
Talking with a boyfriend
About a trip to Paris

You looked and then you smiled at me
You were so damn beautiful
The kind I like to meet
But I never get that lucky

Oh, walking down the street
But I knew that this smile was so different
From the rest that I've known all my life

I've seen the eyes of an angel
Eyes of an angel
Angel eyes
I've seen the eyes of an angel
Eyes of an angel
Angel eyes

When it comes to lovin'
I know that I'm afraid
But I'm looking for that one heart
I know will never fade
Give me your smile
And I know that the smile will be different
From the rest that I've known all my life

I've seen the eyes of an angel
Eyes of an angel
Angel eyes
I've seen the eyes of an angel
Eyes of an angel
Angel eyes

And I know that the smile will be different
From the rest that I've known all my life

I've seen the eyes of an angel
Eyes of an angel
Angel eyes
I've seen the eyes of an angel
Eyes of an angel
Angel eyes

I've seen the eyes of an angel
Eyes of an angel
Angel eyes
I've seen the eyes of an angel
Eyes of an angel
Angel eyes
