

# The Days I Spent With You (Song For Bella)

Chris Rea

Each star that shines  
In the sky tonight  
Is a memory of you.  
Each one a smile, that turned  
My grey to blue.  
When I recall  
The days I spent with you.

The life goes on  
The way this life is going through,  
Mmmmmm  
But I will always have  
The days I spent with you

And I guess that you, will never know  
What you have meant, to me  
The highest high, the deepest deep  
I ever knew.  
And it hurt so bad  
And it always will, it's true.  
But I will always have  
The days I spent with you.

Yes it hurt so bad  
And it always will  
It's true  
But I will always have  
The days I spent with you.
