

Let Freedom Reign

Chrisette Michele

Oh American citizen, come collect your freedom
No matter what your living in
No more giving in
Oh American citizen, come collect your freedom
No matter what you're living in
It's time to win

Keep us in the four walls of our childrens will be quiet
Most of us aint even democratic or Republic
Can, and by coincidence we love the elected until the detected of being huma
n
American falls, minorities lose war
But if we unite we would have won the war
On poverty
On drugs
On medicated
On love

Freedom isn't given it is taken
Freedom isn't free it's earned
Not, no, it's learned
Been hung and burned,
Yet rest in peace, resurrected plea
This aint black or white, it's grey
This is not about my face
Most of us don't know what to say
Right from wrong, I'm free from slaves

Let freedom reign
Do you wanna be free or do you wanna be
I wanna be, I wanna be, I wanna be
Free,
Let freedom Reign

America the beautiful
Suspect as usual
Liberty and death give me freedom on my funeral
I walk across the planet with the steps of a giant
My rhymes bridge the gap between religion and science
Cause my evidence is spiritual
I know my sheer presence is a miracle
I wasn't supposed to be here to share with you
But here I am, standing with my chest out
I take my place in history I never get left out
You stressed out and scared so it's causing you to act hard
Freedom aint free, gotta put it on my black card
My passport claim I'm an American citizen
The constitution said I'm three fifths
I'm not a semi and gorrilla
Make my songs stronger than the horn of Gideon
Truth is the ? gave the native people syphillis
Consider this: Christopher Columbus ain't know where he was goin'
So lets stop calling our Native brothers Indians

We were carried here in shackles from the homelands
? chop, chain locked, brain washed, programmed
Time's change, freedom reigns, I'm a grown man

Holding the future in the palms of my own hands
In this World, the coonery and tomfoolery
All I'm trying to do is stay true to my community
The daily news aint the only thing that's schooling me
Watching these haters operating with impunity
This journey dollar signs, black and white collar crimes
Running out of time, out of sight, out of mind
It gets realer and it's real in Palestine
Troubles of the World start to seem intertwined
War criminals, conflict minerals, pillagers are coming home
And five star generals telling lies in press conferences and interviews
I'm trying to take back the power cause it's been abused

I'm just black in America
I'm not afro american
Just a passive american
Making belief I'm better than
What we've been, what we've been
I said
I'm just black in America
I'm not afro american
Just a passive american
Making belief I'm better than
What we've been, what we've been
