

# Unsaid

Chrisette Michele

Walk in these, here's a pair of shoes  
I used to walk in fear, fear of leaving you  
Scared to go, I stayed  
Staying lonely let you let me stay

Don't speak, there's really no need, be quiet  
I only want to hear the leaves beneath your feet  
We said this all before, close the door, close the door

Don't go on, go away, I've got no more words to say  
In the song though we can't go through the pain  
Yeah you tried, take a break  
If I'm wrong then that's ok  
If you've got something to say, too bad  
It's better left unsaid  
Said  
Pull the plug, don't resuscitate  
Let it die quick, no drugs  
Rather pain than lies, we both will agree  
We both disagree, so let's agree, let's be free

Don't go on, go away, I've got no more words to say  
In the song though we can't go through the pain  
Yeah you tried, take a break  
If I'm wrong then that's ok  
If you've got something to say, too bad  
It's better left unsaid  
Said  
Why you wanna kill me with your lips  
Wouldn't you rather love me with your kiss  
I could be all better with out this  
Loving you used to be such bliss  
If you give me hell, I will not miss  
These words my heart ohhhhh

Don't go on, go away I've got no more words to say  
In the song though we can't go through the pain  
Yeah you tried, take a break  
If I'm wrong then that's ok  
If you've got something to say, too bad  
It's better left unsaid  
Said It's better left unsaid
