

Party

Christine Anu

Stepping out in my deadly red shoes
Stylin' up cause I'm wearing something new
Tidda girl had got her eyes up off the ground
Keeping time to the rythmn of the city sounds

Why don't you come join my party
Let's move it till the break of dawn
I gotta here that music ringing
Bring it on

Tell the blackvine singing out foreverone to come
The word is out drift on down
Come on and have some fun
Tie your hair up let your hair down fling it everywhere
Young and old gather 'round hear the laughter in the air

Why don't you come join my party
Let's move it till the break of dawn
I gotta here that music ringing
Bring it on

Got my eye on a brother hanging right outside his block
Feeling shame to ask his name hey but I know that I've got luck
Don't hold back let it out thats what community's about
Come along to my house bring friends and family around

Why don't you come join my party
Let's move it till the break of dawn
I gotta here that music ringing
Bring it on

Why don't you come join my party
Let's move it till the break of dawn
I gotta here that music ringing
Bring it on

I gotta hear that music ringing
Bring it on
