

## Other Chicks

Ciara

I know you and her got something goin' on  
And I respect that, but you gotta admit  
There's something between us

Everything I want, you got it  
And I must admit that I'm excited  
That girl ain't right for you  
See I'm the type for you  
And what I'd like to do is chill, feel me

So let a girl be down and come and get with me  
No time to play around, cause I'm for real baby  
I'm feelin' everything you do  
You know that you're feelin' this too  
So let's keep it real  
Cause I don't

I don't care about them other chicks  
I wanna be the one, only one that can get close to you  
So forget about them other chicks  
Cause they ain't gonna do, all the things I'ma do for you  
I don't care who you dealing with  
Just let 'em know that you found a girl, gon' be down for you  
So forget about them other chicks  
Just forget about them other chicks

By the days when the song used to make you say  
Oh (oh), that's what you do to me  
I'm feelin' you so much, I just can't let go  
Baby see, I'm daydreaming 'bout your love everyday  
And I must say, that it's on and it's crazy

So let a girl be down and come and get with me  
No time to play around, cause I'm for real baby  
I'm feelin' everything you do  
You know that you're feelin' this too  
So let's, keep it real, keep it real

I don't care about them other chicks  
I wanna be the one only one that can get close to you  
I don't care about them other chicks,  
Cause they ain't gonna do, all the things I'ma do for you  
I don't care who you dealing with  
Just let 'em know that you find a girl gon' be down for you  
So forget about them other chicks  
Just forget about them other chicks

Boy, you got me trippin', cause I don't wanna ooh, ooh, ooh  
Nothing I think about you, me without you, just ain't gon' do  
Wanna be, wanna be your girl  
You should get with me, not her  
Gotta roll wit me, come on and help me sing my song  
Ready, ready, ready to get it poppin', no stoppin', so let me know  
Is this what you want  
Ready, ready, ready to get it poppin'  
I bet we can make it hot, so baby come on  
(I don't care, baby come on)

I don't care about them other chicks  
I wanna be the one only one that can get close to you  
So forget about them other chicks  
Cause they ain't gonna do all the things I'ma do for you  
I don't care who you dealing with  
Just let 'em know that you find a girl gon' be down for you  
So forget about them other chicks  
Just forget about them other chicks

I don't care about them other chicks  
I wanna be the one only one that can get close to you  
So forget about them other chicks  
Cause they ain't gonna do all the things I'ma do for you  
I don't care who you dealing with  
Just let 'em know that you find a girl gon' be down for you  
So forget about them other chicks  
Just forget about them other chicks
