

10th Floor Ghost Girl

Cibo Matto

Music from Africa from a dark hallway
Who can tell me if something is off tonight

Smell of exotica in a dark elevator
Who can tell me if something is off tonight

She talks like American she walks like Egyptian
Maybe International Ghost Girl

She fades into the wall and goes through the door
My curiosity killed my fat black cat, huh

Let's go

I just want to check in
Because she blocked my way
Don't stop me I want to know
Keep moving away

Who is the tenth floor?
Ghost girl
I kind of want to
Know how long (love?)

Who's on the dance floor
Ghost girl
I just want to
Let her know

Music from Jamaica from a dark stairway
Who can tell me if something is off tonight

I feel of ... in a dark elevator
Who can tell me if something is off tonight

She talks like American, she dances like Brazilian
Maybe International Ghost Girl
She fades into the wall and goes through the door
Curiosity killed my fat black cat
