

alter and teach the ages  
nothing you love lasts too long  
a marvelous calm  
abandoned in the stages of  
birth mother vs. the mid wife  
who'll tell the children about her life

that's why you never mentioned my name to them  
denying us all of the moment

that's why you never mentioned my name to them  
denying us all of the moment

what brought you back to this place  
I knew you'd never learn  
I knew you'd never

anything expected of you now  
I knew you'd never learn  
I knew you'd never

I'd place my bet down now  
you'll be the first one to sell me out

that's why you never mentioned my name to them  
denying us all of the moment

that's why you never mentioned my name to them  
denying us all of the moment

what brought you back to this place  
I knew you'd never learn  
I knew you'd never

what brought you back to this place  
I knew you'd never learn  
it's obvious

what brought you back to this place  
what brought you back to this place
