## **Fire That Burns**

## **Circa Waves**

Comfort me, oh comfort me I'm lighting up See the day you run for me You run for me, my love Take a peek, oh take a peek Inside my head I promise you I'm not so scared I'm not so scared at all But I've been tied up For days And I've been thinking of the things that you've said And I've been wound up Each way I need to let you know, to let you know today You call me a liar You call me so innocent But you lit the fire You lit the fire that burns The fire that burns inside us I'm not innocent I lit the fire, the fire, the fire I lit the fire Comfort me, oh comfort me I'm lighting up See the day you fall for me You fall for me, my love Take a peek, oh take a peek I'm standing tall To try and see the final spark Of you and me my love But I've been tied up For days And I've been thinking of the things that you've said And I've been wound up Each way I need to let you know, to let you know today You call me a liar You call me so innocent But you lit the fire You lit the fire that burns The fire that burns inside us I'm not innocent I lit the fire, the fire, the fire I lit the fire I lit the fire I lit the fire You call me a liar You call me so innocent

But you lit the fire You lit the fire that burns The fire that burns inside us I'm not innocent I lit the fire, the fire, the fire
