

Taken Away

Circle II Circle

Every single minute
Just like it's always been
I'm lost within it
Never knowing where it begins

Forever searching
Following this pain

Inside the darkest night
Shadows deep inside
They call my name
All the shades of sorrow will remain
Someday I want to show you everything
You've taken away from me

I'm not any different
Than the day I left the tears
I've gone the distance
The rest are drowning in fear

It's time
You see
Inside the distant pain
Release me from these chains

Inside the darkest night
Shadows deep inside
They call my name
All the shades of sorrow will remain
Someday I want to show you everything
You've taken away from me

Live beyond this life
As time fades away
The light creates this pain

Inside the darkest night
Shadows deep inside
They call my name
All the shades of sorrow will remain
Someday I want to show you everything
You've taken away from me
