

## Karma Stew

Circle Jerks

Do you feel strange?  
Walking down the street  
This might be your unfortunate day  
Not proud of your past  
You bruned a few  
Now you're cooking  
In your own stew

Our lives are based on time  
You've got to feel your way through  
It might come back to you  
And when it does you'll understand

[Chorus:]

Is there something wrong?  
Karma stew  
Is there something wrong?  
Karma stew

All your plans they will fall through  
'cause you told lies and never truths

Our lives are based on time  
You've got to feel your way through  
It might come back to you  
And when it does you'll understand  
Something is wrong
